GLOSSARY	
Term	Definition
Maintaining the account	The account provider operates the account for use by the customer.
Providing a debit card	The account provider provides a payment card linked to the customer's account. The amount of each transaction made using the card is taken directly and in full from the customer's account.
Providing a credit card	The account provider provides a payment card linked to the customer's payment account. The total amount of the transactions made using the card during an agreed period is taken either in full or in part from the customer's payment account on an agreed date. A credit agreement between the provider and the customer determines whether interest will be charged to the customer for the borrowing.
Cash withdrawal	The customer takes cash out of the customer's account.
Provision of a cheque book	Issuance of a cheque book for payments by charging the customer's account.
Credit transfer SEPA	The account provider transfers money, on the instruction of the customer, from the customer's account to another account, through SEPA.
Credit transfer NON SEPA	The account provider transfers money, on the instruction of the customer, from the customer's account to another account, through a channel other than SEPA.
Standing order	The account provider makes regular transfers, on the instruction of the customer, of a fixed amount of money from the customer's account to another account.
Direct debit	The customer permits someone else (recipient) to instruct the account provider to transfer money from the customer's account to that recipient. The account provider then transfers money to the recipient on a date or dates agreed by the customer and the recipient. The amount may vary.
Return cheque due to inadequate balance	Decline the payment of a cheque due to an insufficient balance of the account to be charged.
Currency exchange services	Conversion of the currency of the account into the currency of the transfer / withdrawal.
Overdraft	The account provider and the customer agree in advance that the customer may borrow money when there is no money left in the account. The agreement determines a maximum amount that can be borrowed, and whether fees and interest will be charged to the customer.
Overrunning	A tacitly accepted overdraft whereby a payment service provider makes available to a customer funds which exceed the current balance in the customer's payment account or the agreed overdraft facility.
Copy of statement	Reissuance of an account statement.
